Food Industries

GENERAL ALPHABETICAL INDEX

Volume 17

JANUARY, 1945, to DECEMBER, 1945

January	1- 122
February	123- 244
March	245- 360
April	361- 464
May	465- 616
June	617- 734
July	735- 872
August	873-1010
September	1011-1142
October	1143-1282
November	1283-1440
December	1441-1604

A

Accidents and accident prevention:
- Accident rate high in food industry (N) 176
- Hazards of refrigeration (ed) 1488
- Remedies for slippery floors. H. E. Gavey *279
- Safety at high pressures. W. C. Nicol... *13
- Safety made practical in bakeries. R. C. Haven *380
- Safety starts at the top (ed) 34
- Safety through color 737

Adhesives, improved (e) 962
Adhesive, resorcinol (e) 1543
Agar
- America's sugar industry C. K. Tseng pt 1, *10; pt 2, *140; pt 3 *258
- Irish moss preparation (A) 1252
- New Zealand seaweed for agar manufacture (A) 1406

Agriculture
- Anderson appointed to be Secretary of Agriculture (N) *659
- Crop prospects fair (N) 676
- Farm income (chart) 1334
- Farm products being speeded to processor (N) 938
- Live cattle OPA order 186
- Livestock industry faces bright prospect (N) 1062
- Now is the time to plan for disposing of any agricultural surpluses (ed) 1184
- What's ahead in 1945 (ed) 1
- Will agriculture collapse? T. W. Schultz. *1020

Air conditioning. Exhaust fans on roof lower temperatures in candy plant. MacTorbett *1156
Air filter, electronic (e) *1543
Air jet method of dehulling seeds (A) 217
Air transport
- Heinz ships by air tomato plants (N).. 778
- OPA sets prices for airshipped products (N) 1066
- Whole meals, pre-cooked, quick frozen and ready to finish cook *522

American Bottlers of Carbonated Beverages meeting (N) 41
American Butter Institute meeting (N).... 44
American Management Association Packaging Conference (N) 1206
American Meat Institute—Chicago meeting (N) 1504
American Millers Association meeting (N).. 44
American Poultry Industries meeting (N).. 296
American Society of Bakery Engineers Meeting (N) 410
American Society of Refrigerating Engineers New York meeting (N) 42
Amioca—the starch from waxy corn. H. H. Schopmeyer *1476
Anhydrous foods, successor to dehydrated (ed) 1487
Argentina—Chocolate exports reported (N). 936
- Dehydration the Argentine way. H. K. de Weerth *54

Ascorbic acid added to peaches before freezing. Bauernfeind & Siemers 745
Australia
- Drought hits cereal grains (N) 182
- Food produced for U. S. forces (N) 1078
- Heavy rains improve crops (N) 924
- Wheat crop down over 60 percent (N).. 1192

Avoset see Milk
Awards
- "A" and "Star" awards earned by food plants (N) 920, (N) 1518
- Added "A" awards (N) 42, 176, 408, 544, 788, 920, 1076, 1204 1518
- Food plant awards to be discontinued (N) 1204
- Long used brand names get awards of merit (N) 1522
- WFA merit award to nine plants (N).. 659

B

Bacteria
- Egg powder—effect of storage temperature on bacteria in egg powder. L. S. Stuart & others *1174
- F & DA halts shipment of filthy products (N) 422
- A flavorist views food processing. E. C. Crocker *247
- Heat activation (A) 839
- How to retard rancidity in salt-cured fish. Lt. Cmdr. R. E. Silver *1454
- Molds kept frozen (A) 1250
- Propionate for molds (A) 1402
- Propionates control microbial growth in fruits, vegetables. Wolford & Andersen *622
- The "Stinkometer" — new tool. Lang, Farber & Yerman *8
- Test new germicides at experiment station (N) 1348
- Thermophiles (A) 1576
- Vanillic acid esters as food preservatives. Pearl & McCoy *1458
- Vanillic acid esters as preservatives. I. A. Pearl *1173

Bag holder (e) *1546
Bakeries and baking
- Apple whip formula 477
- Apricot parfait icing formula 1417
- Baked apple cake formula 993
- Baker's jelly formula 1417
- Banana cake formula 89
- Banana cookies formula 993
- Banana layer cake formula 1259
- Base for parfait icing formula 1417
- Beetles in biscuits (A) 217
- Brown Betty cake formula 477; 589
- Butterscotch cookies formula 477; 1581
- Butterscotch cream pie formula 717
- Butterscotch sandwich cookie base cake formula 89
- Caramel cream cake formula 1581
- Chocolate sponge pie formula 589
- Cocoa pound cake formula 1259
- Coffee cup cakes formula 347
- Colonial cake with soya formula 1417
- Cracked-wheat Streussel formula 1123
- Cranberry apple pie formula 477
- Cream fillings for cookies (A) 217
- Crum cookie mix formula 717
- Distribution costs for bakery products (chart & table) 1150
- Dried egg powder in baking (A) 1408
- Egg white for baking (P) 1111
- 18 mistakes in the use of lecithin. L. R. Cook, pt 1 *740, pt 2 *900
- 18 ways for bakers to get jump on competitors *1015
- French doughnuts formula 1259
- Frozen bakery products ready to bake... 654
- Frozen pies *775
- Fruit cake mix *776
- Ginger cookies formula 89
- Highland butterscotch cake formula 1123
- Honey topping formula 1259
- Ideas for bakery for tomorrow. W. R. Van Meter *123
- Lactose as sugar saver in baking (A).. 709
- Loose-Wiles supplies jobs for the wounded. J. A. J. Jones *1318
- Malted chocolate cookies formula 993
- Marshmallow in orange and mint flavors *398
- Milan cookies formula 225
- Molasses cakes formula 225
- Orange coconut cake formula 347
- Peach chiffon pie formula 1123
- Peanut butter cookies formula 225
- Peanut butter muffins formula 1581
- Peanut fluff cake formula 589
- Peanut muffin mix formula 849
- Pennsylvania potato cake formula 1417
- Pie crust makin's *1189
- Piecrust mix formula 993
- Pies, quick frozen, ready to bake 525
- Prepared mix for buttermilk biscuits formula 1123
- Prize ring formula 589
- Pumpkin pie mix *1186
- Ration biscuits (A) 579
- Rum fruit cake *1055
- Safety made practical in bakeries. R. C. Haven *380
- Separation of gluten (A) 579
- Soft wine drop cookies formula 1259
- Southern fried pies 703
- Soya pecan pie formula 477
- Soya pie dough formula 717
- Soya-vanilla wafers formula 89
- Streussel formula 1581
- Survey shows extent of bakery curtailment (N) 1194
- Sweet potato pie formula 1123
- Yam cakes formula 1581

Baking powder tins 654
Barge, concrete refrigeration *165
Bearings—electrical "wear" in motor bearings. D. B. Hoover *1298
- How to lubricate ball and roller bearings. *1453

Beer—Fluoride disinfectant found in seized beer (N) 42
Belt, rubber, tested for static conductance... *893
Belting, plastic-coating (e) 76
Beverages
- Bottling history made in Hawaii *133
- Chocolate milk — product with future. Gideon Hadary 1449
- Cider treated with propylene glycol (P). 218
- F & D A bar monochloracetic acid as preservative (N) 1348
- New process adds to efficiency of sugar (N) 1368
- Soft drink award for best industry research (N) 289

Bin dryers control. Bouyoucos & Marshall... *762
Blanching
- Dehydrated potato quality is not improved by severe blanching. Campbell, Lineweaver & Morris *334
- Dehydration of cut fruits with a different technique. Phaff, Perry & Mrak pt 1 *150. Phaff, Marsh, Mrak & Fisher pt 2 *156. Phaff, Mrak, Perry & Fisher pt 3 *634
- A flavorist views food processing. E. C. Crocker *247

Blower for heat dispersion (e) *437
Boiler-control panel (e) 440
Boilers—lime scale control 1543
Book Reviews
- Air compressors. E. W. Feller 1240
- America's new opportunities in world trade 335
- Analysis of foods. Winton & Winton... 975
- Annual review of biochemistry ed by Luck & Smith 1105

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patents. (N) News.

Bibliography of butter oil, comp. by C. B. Sherfy ... 212
Bioenergetics and growth. Samuel Brody 1240
Brewing materials. A. S. Wahl ... 831
Business leadership in the large corporation. R. A. Gordon ... 975
Cane sugar handbook. Spencer & Meade. 460
Canners directory — 1945 ... 1387
Catalytic chemistry. H. W. Lohse ... 1387
Chemistry and technology of food and food products ed by M. B. Jacobs ... 212
Commercial methods of analysis. Snell & Biffen ... 80
Demobilization of wartime economic controls. J. M. Clark ... 460
Dictionary of engineering and machine shop terms. A. H. Sandy ... 335
Electronic equipment. R. C. Walker ... 1553
Fats and oils. H. G. Kirschenbauer ... 80
Flavor. E. C. Crocker ... 705
Food for the world ed by T. W. Schultz .. 573
Food regulation and compliance. A. D. Herrick ... 335
Fundamentals of pressure and temperature instruments ... 573
Grade labeling and the consumer ... 705
How to handle labor grievances. J. A. Lapp ... 976
Index to the literature of food investigation. Agnes Glennie & Janet Hall ... 335
Industrial oil and fat products. A. E. Bailey ... 1105
Job opportunities for the veteran in the wholesale ice cream industry ... 1387
Manual of sugar companies ... 212
Microanalysis of food and drug products 573
Microbiology of meats. L. D. Jensen ... 831
Organization of technical research in industry ... 1554
Personnel problems of the postwar transition period. C. A. Myers ... 212
Practical cheddar cheese manufacture. G. H. Wilster ... 1105
Principals of industrial control. D. P. Eckman ... 1387
Process equipment design. Hesse & Rushton ... 976
Reconstruction of world agriculture. Karl Brandt ... 831
Rice in the Western Hemisphere. V. D. Wickizer ... 1240
Spice handbook. J. W. Parry ... 1553
Useful soybean. Mildred Lager ... 975
Uses and applications of chemicals and related materials. T. C. Gregory ... 80
Veteran law manual ... 831
Vitamins and hormones. Harris & Thimann ... 1553
Wartime technological developments under direction of W. D. Evans ... 1105
World grain review and outlook. Farnsworth & Timoshenko ... 1553
Bottles — Colored milk bottles will preserve vitamins (N) ... 530
Return milk bottle campaign prepared (N) ... 1198
Boxcar heater (e) ... *562
Boxcar loader (e) ... *328
Bread
Cheese bread formula ... 89
Fermentation atmosphere (A) ... 984
Food chemists helped Britain to weather the war. D. W. Kent-Jones ... *1313
High frequency heat eliminates mold from bread (N) ... *1506
How soya acts in bread (A) ... 1111
Irish soda bread formula ... 849
Peanut flour bread (A) ... 467
Rye bread canned ... *1490
WFA order ... 57
Brewing
European breweries help supply troops (N) ... 660
Less malted grain for brewing and more for industrial alcohol (N) ... 306
Limitation set on purchases of hops (N) 1212
Sorghum malts (A) ... 712
Wort decantation (P) ... 342
Bucket carrier (e) ... *1376
Bureau of Agriculture & Industrial Chemistry Assistant chief named (N) ... 1502
Burton, L. V. goes to European theatre (N) 540
Butter
American Butter Institute asks change in regulations (N) ... 44
Butter situation calls for action. M. E. Parker ... 700
Heating makes butterfat keep. Josephson & Dahle ... *630
Low-down on butter. H. A. Ruehe ... *1043
New Zealand dries butterfat ... *370
Quick cooling of cream improves butter. Erickson & Long ... *1299
Rationing vagaries (ed) ... 281
Soya butter is oleo, then again it isn't (N) ... 528
Tinned butter spoils (A) ... 1565
Two schools launch butter package study (N) ... 1354
Vacreator — for pasteurizing, deaerating and condensing. G. H. Wilster ... *1152
WFA order ... 186
Weighted average vitamin A potency for all butter (N) ... 924
Byproducts — Drying citrus cannery wastes and disposing of effluents. J. L. Heid .. *1479

C

Cabinet, snap-assembly (e) ... *562
Canning and preserving
Apple processing improved at Musselman's. L. C. Mazzola ... *134
Army ups requirements for canned goods (N) ... 292
Baby soup ... *772
Bloater paste formula ... 1259
Blue marlin canned ... *1327
Butter in cans spoils (A) ... 1565
Can makers are short on steel in face of increased food needs (N) ... 403
Canned plum pudding process put on continuous basin. Reiman & Volle ... *1286
Carp, canned ... *915
Citrus products processing for quality. J. L. Heid ... *626
Cleaning vined canning peas by froth flotation. Neubert & Veldhuis ... *494
Cocktail ready-to-use package ... *657
Comparison of utilization of five vegetables 1937-43 (chart) ... 263
Continuous operation (A) ... 986
Crabmeat cannery on a Russian ship (A) ... 1247
Drying citrus cannery wastes and disposing of effluents. J. L. Heid ... *1479
F. & D. A. opposed in canned peaches suit (N) ... 42
F. & D. A. plans inspection of baby food plants (N) ... 166
Figs and cashew nuts used as a spread .. *39
Fish in cans increased for civilian consumption (N) ... 1346
A flavorist views food processing. E. C. Crocker ... *347
Georgia canners show rapid ten-year growth (N) ... 1080
Government food stocks of canned foods (N) ... 404
Grade labeling group market common brand (N) ... 1526
Guava—new vitamin C material. Godston & Chanin ... *366
Hamburgers canned. Capt. W. W. Bailey ... *1294
How to match retort output with steam capacity. Lewin & Lewin ... *894
If brine is saturated, salt control is ready. D. W. Kaufman ... *754
Inert gas packing for fruitcake and nutmeats for overseas ... *912
Madrilene soup ... *772
Milk sterilized in cans (P) ... 111[illegible]
Mixed nuts canned ... *1324
Oxygen taken out of cans to improve flavor and quality. R. V. Wilson ... *884
Processing times for canning meat (A). 1401
Progress and prospects of the frozen food industry ... 271
Rye bread canned ... *1490
Salmon cannery discards studied for new food production (N) ... 780
Salmon claims by the Alaska Indians (N) ... 42
Salted vegetables (A) ... 988
Sauerkraut processing and canning (picture feature) ... 1168
Set-asides end (N) ... 1344
Smoky salmon ... *1327
Stahl-Meyer spreads ... *1490
Standards for oyster fill (N) ... 42
Standards for tomato pulp issued (N) .. 42
Steel strip supply increases (N) ... 165
Systematic sampling pays in controlling filling weights. Goode & Dundas ... *1468
Tin supplies for 1945 (N) 165 (N) 668
Tin WPB order ... 187
Tinplate assured for canning vegetables (N) ... 530
Vacuum cans for coffee now produced (N) ... 1338
Wage raise hazardous in canning industry (N) ... 1330
WFA renews guarantee for canners' product (N) ... 527
What technology means to the canner. G. C. Scott pt 1 *1165, pt 2 ... *1316
Why canned citrus juices deteriorate in storage. Riester, Braun & Pearce ... *742
Car puller (e) ... *440
Carbon dioxide ice liquefier (e) ... 1232
Carbon dioxide in the food industry. G. T. Reich pt 1 *890, pt 2 *1046, pt 3 *1170 pt 3A ... *1305
Cereals
Cereal pancake mix formula ... 717
Dehydrated hominy — packaging and storing ... 26
Enrichment (P) ... 339
Farina combined with apples ... *284
Moisture determination (A) ... 467
Multiple bleaching (A) ... 839
Precooked cracked wheat with the wheat germ ... *912
Rancimeter tests shelf-life of cereals. F. E. James ... *492
Rice planting in Java ... *777
Separating the good from the bad. D. L. Klein ... *498
Shelf-life predictions (A) ... 984
Synthetic spice base (P) ... 87
Thiamine in cereals (A) ... 983
What technology means to cereal processors. F. N. Peters pt 1 *737, pt 2 ... *898
Chair, adjustable (e) ... 70
Cheese
All cheese controls lifted by USDA (N) . 1202
Better cheese (A) ... 582
Cheddar cheese, 65 percent, set aside for government (N) ... 532
Cheese bread formula ... 89
Cheese made from unpasteurized milk (ed) ... 157
Frozen curds boost cheese production. J. C. Marquardt ... *501
Grated cheese in tins ... *1189
Less art and more science in cheese manufacture. H. R. Whitehead ... *1157
Liederkranz manufacture requires quality control. J. M. Johnston ... *142
OPA regulation ... 56
Sanitary curds (p) ... 1114
